It is strongly believed that developing more sustainable cities is not just about improving the abiotic and biotic aspects of urban life, it is also about the social aspects of city life, that is—among others—about people's satisfaction, experiences and perceptions of the quality of their everyday environments (see also Beer, 1994). In the context of this study, the relation between urban ...

Thanks to recent advances in technology, we have a clearer understanding of how these effects are related to early brain development. Neuroscientists can now identify patterns in brain activity that appear to be associated with some types of negative early experiences. 1 But the long-term effects of early stress, poverty, neglect and maltreatment were well documented and virtually uncontested ...

I'm going to tell you the weirdest and, yet, most obviously true thing you've ever heard: You're not a person. This is going to sound like some real Rust Cohle s\*\*t, but bear with me because deep down you already know all of this.. For instance, you already know that you are, to a certain degree, a product of your genes -- they go a long way toward determining if you would be physically ...

Gentrification is a process of renovating deteriorated urban neighborhoods by means of the influx of more affluent residents. This is a common and controversial topic in politics and in urban planning. Gentrification can improve the material quality of a neighborhood, while also potentially forcing relocation of current, established residents and businesses, causing them to move from a ...
