Dealer responded, but the response was snotty. Would not deal with a dealer with that attitude. Basically I ask a question concerning the transmission as the pictures posted showed the car to be an automatic and the info I received by researching the car by VIN number showed the car to have a 5 speed manual.

Limp mode is a security function for your engine and transmission. When the engine or transmission control unit has recognized a serious faulty parameter from the engine or transmission, the car will go into limp mode. The limp mode does often reduce the power and limit the RPM of the engine so you can drive your car to a workshop without damaging the engine.
