From The Martian (2015); The point of this website is to allow a science fiction writer or game designer to get the scientific details more accurate. It is also to help science fiction readers and game players to notice when the media they are enjoying diverges from scientific reality.

Preliminary Notes - Atomic Rockets

"Active hydrogen" (sometimes called "nascent" hydrogen) refers to hydrogen in the form of atoms rather than stable H₂ molecules. This form of hydrogen is highly reactive and when it is formed, disappears in less than a second.

To reiterate, my motive for creating this website is to help authors, game designers, and programmers get the science correct in their creations (thus increasing the amount of the kind of science fiction I enjoy). The most striking examples are those novels whose authors I directly assisted. But there are a few creations I've run across that did get the science correct without any help from me.
