Information About Lady Gouldian Finch | Frisky Finch

Peter Raymond Grant, FRS, FRSC, and Barbara Rosemary Grant, FRS, FRSC, are a British couple who are evolutionary biologists at Princeton University. Each currently holds the position of emeritus professor. They are known for their work with Darwin's finches on Daphne Major, one of the Galápagos Islands. Since 1973, the Grants have spent six months of every year capturing, tagging, and taking ...

Peter and Rosemary Grant - Wikipedia

The Gouldian Finch breeds in small social colonies, with breeding normally taking place from. It is the only grassfinch that nests exclusively in tree hollows or holes in termite mounds.

Gouldian Finch | BIRDS in BACKYARDS

In evolutionary biology, adaptive radiation is a process in which organisms diversify rapidly from an ancestral species into a multitude of new forms, particularly when a change in the environment makes new resources available, creates new challenges, or opens new environmental niches. Starting with a recent single ancestor, this process results in the speciation and phenotypic adaptation of ...
