Deterministic modeling process is presented in the context of linear programs (LP). LP models are easy to solve computationally and have a wide range of applications in diverse fields. This site provides solution algorithms and the needed sensitivity analysis since the solution to a practical problem is not complete with the mere determination of the optimal solution.

Types. There are a variety of legal types of organisations, including corporations, governments, non-governmental organisations, political organisations, international organisations, armed forces,

charities, not-for-profit corporations, partnerships, cooperatives, and educational institutions.. A hybrid organisation is a body that operates in both the public sector and the private sector ...

Organization - Wikipedia

Evolutionary economics is part of mainstream economics as well as a heterodox school of economic thought that is inspired by evolutionary biology. Much like mainstream economics, it stresses complex interdependencies, competition, growth, structural change, and resource constraints but differs in the approaches which are used to analyze these phenomena.
