What is an Encroachment? An "encroachment" is defined in Section 660 of the California Streets and Highways Code as "any tower, pole, pole line, pipe, pipeline, fence, billboard, stand or building, or any structure, object of any kind or character not particularly mentioned in the section, or special event, which is in, under, or over any portion of the State highway rights of way.

Encroachment Permits - Caltrans

Featured Links: PBS Mathline. In a time when environmental activists are urging every American to make small changes, these PBS Mathline activities focus on mathematical investigations of earth-friendly practices, including energy usage and recycling. They provide real data and encourage students to follow the data trail through time in hopes that they will be prompted to take action.

Many scientific, military, medical and commercial laser applications have been developed since the invention of the laser in 1958. The coherency, high monochromaticity, and ability to reach extremely high powers are all properties which allow for these specialized applications.

List of laser applications - Wikipedia

Infrared radiation (IR), sometimes called infrared light, is electromagnetic radiation (EMR) with longer wavelengths than those of visible light, and is therefore generally invisible to the human eye, although IR at wavelengths up to 1050 nanometers (nm)s from specially pulsed lasers can be seen by humans under certain conditions. IR wavelengths extend from the nominal red edge of the visible ...
