1. Introduction. A major challenge that faces the international community is to provide safe food for over 9.1 billion people by the year 2050 (Parfitt et al., 2010). While the focus is directed to increase production by 50–70 percent to reach this target, one factor that is usually ignored is to reduce food loss and waste (Hodges et al., 2011). ...

A camera works with the light of the visible spectrum or with other portions of the electromagnetic spectrum. A still camera is an optical device which creates a single image of an object or scene and records it on an electronic sensor or photographic film. All cameras use the same basic design: light enters an enclosed box through a converging/convex lens and an image is recorded on a light ...

Erik Erikson was a follower of Sigmund Freud who broke with his teacher over the fundamental point of what motivates or drives human behavior. For Freud it was biology, or more specifically, the biological instincts of life and aggression. For Erikson, who was not trained in biology and/or the medical sciences (unlike Freud and many of his contemporaries), the most important force driving ...
