The modern profession of architecture echoes with its origins, its rich history, and the fast-paced changes of the 21st century. Through antiquity, architecture and construction were united by the cultural intentions of a "Master Builder," who balanced art, science, materials, form, style and craft to achieve his vision. "The regulated profession of architecture is relatively new.

Architecture | WBDG - Whole Building Design Guide

Ideally, architects of houses design rooms to meet the needs of the people who will live in the house. Feng shui, originally a Chinese method of moving houses according to such factors as rain and micro-climates, has recently expanded its scope to address the design of interior spaces, with a view to promoting harmonious effects on the people living inside the house, although no actual effect ...

House - Wikipedia

An architectural drawing or architect's drawing is a technical drawing of a building (or building project) that falls within the definition of architecture. Architectural drawings are used by architects and others for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to enable a building ...
