We all know that the U.S. economy is colossal, but just how large is it? In fact, with a 2017 GDP of more than \$18 trillion, the US economy represents more than 20% – or more than 1/5th – of the entire global economy. Although emerging economic superpowers like China are significant, their economy is still 70% smaller than the U.S. Even when you add up the total commerce from China, Japan ...

Positioning High Rate Accounts. For banks and credit unions, high rate accounts have been a solid way to increase deposits. However, these high rate accounts with minimum balances of \$10,000, \$15,000 or \$25,000 have a limited appeal since many consumers can't meet the minimum deposit requirements.
