Biodiversity and Human Wellbeing. biodiversity and human well being. What is the problem? Human actions are fundamentally, and to a significant extent irreversibly, changing the diversity of life on Earth, and most of these changes represent a loss of biodiversity. Changes in important components of biological diversity were more rapid in the past 50 years than at any time in human history.

Acceptable use Acceptable use Acceptable use. Acceptable use means acting like a good citizen online. How you behave online should be the same as how you behave offline (in the real world).

### **AnyQuestions**

1. Introduction. Biodiversity is increasingly recognised as one of the cornerstones of healthy ecosystems (Kremen, 2005, Worm et al., 2006, Duffy et al., 2007, Hector and Bagchi, 2007, Pinto et al., 2014). The loss of biodiversity due to human action has the potential to reduce multitrophic-level interactions (Costanza et al., 1997, Schneiders et al., 2012) and cause trophic cascade ...

### **How to value biodiversity in environmental management ...**

Explain why entering an interglacial period resulted in an increase in biodiversity on Earth. When the ice age ended and glaciers retreated the more hospitable grasslands and forests developed hosted greater biodiversity (during an ice age the conditions on Earth favor glaciers and cold deserts over more hospitable environments).
