I have provided several basement waterproofing tips and have contended that by taking these steps, you can avoid water in your basement. However, there is an old adage about basements: "There are those that are wet, and those that are going to be wet."

Sump Pumps - I Finished My Basement

The single most important reason you should use a high-performance vapor barrier is to protect the expensive floor covering in your building. Water-based adhesives used to secure your floor covering are highly susceptible to the presence of liquid water and the alkaline salts it pulls into solution from the concrete slab.

10 Critical Reasons Why You Need a Below-Slab Vapor Barrier

Everyone can enjoy the look and feel of fine wood furniture. But, with the prices of quality wood furniture increasing, many do-it-yourselfers are creating their own custom pieces, like cabinets.
