A not always very easy to read, but practical copy & paste format has been chosen throughout this manual. In this format all commands are represented in code boxes, where the comments are given in blue color. To save space, often several commands are concatenated on one line and separated with a semicolon ';

Proposed - Texas Education Agency

Transgender individuals are those who do not identify with the sex they were assigned at birth. This discordance is called gender dysphoria or gender incongruence. A transgender male (previously referred to as female to male [FTM]) is someone who was assigned female at birth but who identifies and lives as a male. A transgender female (previously referred to as male to female

A condom is a sheath-shaped barrier device, used during sexual intercourse to reduce the probability of pregnancy or a sexually transmitted infection (STI). There are both male and female condoms. With proper use—and use at every act of intercourse—women whose partners use male condoms experience a 2% per-year pregnancy rate. With typical use the rate of pregnancy is 18% per-year.
