Without the Sun, Earth's land, water, and air would all be frozen solid! Life on Earth would cease to exist. That's because almost all living things rely on the steady light and heat of the Sun. The Sun's heat makes liquid water on our planet possible. And all life that we know of — from bacteria to elephants — needs liquid water to survive. ...

Here are a few of many other ideas: (1) The child is learning all of the time, from the environment and from the adults in the environment. It is better to put energy into enriching the environment and becoming good models than in teaching the child. (2) Children learn what they love. Anything forced will probably be detested, or forgotten.
