For Electrical and Electronics Engineers who are preparing for Technical Interviews, Competitive Exams, Entrance Exams... You can find solved objective type questions for Power Electronics, Digital Electronics, Electrical machines, Power systems, basic electrical and electronics, measurements & Instrumentation etc.

Power Electronics Solved Objective Problems

Chapter 1 - Power Electronic Systems S1.1. In linear electronics, semiconductor devices are used in the middle of their linear amplification regions where both the voltage across the component and the current thru it are relatively large. This results in high power dissipation. In power electronics, the semiconductor devices are used as switches.
