Game theory is the study of mathematical models of strategic interaction between rational decision-makers. It has applications in all fields of social science, as well as in logic and computer science. Originally, it addressed zero-sum games, in which one person's gains result in losses for the other participants. Today, game theory applies to a wide range of behavioral relations, and is now an ...

The shadow banking system is a term for the collection of non-bank financial intermediaries that provide services similar to traditional commercial banks but outside normal banking regulations. The phrase "shadow banking" contains the pejorative connotation of back alley loan sharks. Many in the financial services industry find this phrase offensive and prefer the euphemism "market-based finance".
