Investigation 5 T95 Cellular Processes: 2 Energy and Communication investigation 5 ... ALIGNMENT TO THE AP BIOLOGY CURRICULUM FRAMEWORK This investigation can be conducted during the study of concepts pertaining to cellular processes (big idea 2), specifically, the capture, use, and storage of free energy, or ...

BACKGROUND - secure-media.collegeboard.org

your investigation, you may want to take photos to include in your report. Here are some factors that you might investigate (though you are not limited to these) light intensity, light color, concentration of sodium bicarbonate, different types of leaves (avoid leaves with hairy

AP Biology - Investigation 5: Photosynthesis

Investigation 5: Photosynthesis Big Idea 2: Cellular Processes: Energy and Communication PRELAB: Be ready to answer the following questions: (any could be found on the written portion of your exams) 1. What environmental variables might affect the net rate of photosynthesis? Why would they and how would you predict they would effect it? 2.

Investigation 5- Photosynthesis

AP Biology investigation on photosynthesis includes background information and instructions for using spinach leaf disks, light, and baking soda to measure the rate of photosynthesis. Specific instructions are included for measuring the rate of photosynthesis in relation to light and carbon availability.

AP Biology Lab - Photosynthesis

AP® Biology 2013 Scoring Guidelines . The College Board . The College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, the College Board was created to expand access to higher education. Today, the membership association is
