knbt1 Compose and decompose numbers from 11 to 19 into ten ones and some further ones, e.g., by using objects or drawings, and record each composition or decomposition by a drawing or equation (e.g., $18 = 10 + 8$); understand that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones.

Worksheets

ATA. I think Paul King basically nails it. I would only add a few points about the roles philosophy plays in scientific investigation. In descriptive empirical fields crossing both philosophy and science, philosophers: attempt to provide pre-theoretical analytic definitions and models which can potentially be used and tested by a science. This happens more just prior to generating a new ...

What is the relationship between science and philosophy ...

Standards Alignment DreamBox Learning® Math for grades K-8 provides the depth and rigor required by Common Core, state, and Canadian standards.
