Comparison with mass. Matter should not be confused with mass, as the two are not the same in modern physics. Matter is a general term describing any 'physical substance'. By contrast, mass is not a substance but rather a quantitative property of matter and other substances or systems; various types of mass are defined within physics – including but not limited to rest mass, inertial mass ...

Matter - Wikipedia

I was able to score an 89% on the test, and this guide did really help. I'd give it 5 stars, but several of the slides had mistakes... typos, one equation was listed wrong, and one quiz question had the wrong answer.
