Welcome to TUSD Casimir Middle School

Biological Classification How are organisms grouped, sorted, and classified? Why? From the time we begin to talk, we start to name things. We like to see how things are related. It is natural then, that biologists would name and organize organisms into a classification system. In this activity you will learn about the major classification groups and how organisms are named.

POGIL™ Activities for High School Biology - Flinn Scientific

Classification – To put things into groups of some kind. It is usually done based on some type of

similarities. Classification Key – A device used to identify what group an organism or object is in. Most use a two choice system where you answer yes or no to each question to arrive at the correct group.

Name Score Classification - Warren County Public Schools

Answer: Scientific classification of living beings was first done by Aristotle. He used morphological characters as the basis of classification. He classified the living beings into plants and animals. He further classified the plant into trees, shrubs and herbs. He further classified the animals on the basis of presence of absence of red blood.
