Link to Departments website. The major in Accounting at UGA is designed to give students an understanding of the theory of accounting as it is used in our society: accounting standards, financial statement preparation, product costs, budgeting, taxation, auditing, risk assessment, and controls.

University of Georgia

In some regions of the world, pig-tailed macaques are intentionally bred and trained – often with punishment – to harvest coconuts. The monkeys are always tethered to their “handler” and are not permitted to eat the coconuts they collect. No statistics exist detailing exactly how many monkeys are bred and used for this purpose.

Intensive farming involves various types of agriculture with higher levels of input and output per cubic unit of agricultural land area. It is characterized by a low fallow ratio, higher use of inputs such as capital and labour, and higher crop yields per cubic unit land area. This contrasts with traditional agriculture, in which the inputs per unit land are lower.
