According to Victoria Hardy of The American Chronicle, Dr. Stephen D. McKay, who has studied chemtrails for over six years, believes there are four ongoing projects in our atmosphere, "The first project is an effort to block the rays of the sun from hitting the earth including the ultra violet radiation that will come through without an adequate layer of ozone in the upper regions above the earth.

Chemtrails: The Real Reason - Viewzone

I think some knots in the cedar would be OK as long as they are small, tight knots. In general (and there are certainly exceptions) for small boats, strong, heavy woods like locust and oak are used for framing and other structural members, while lighter weight woods like cedar and cypress are used for planking.

Best wood used in boats?? - The WoodenBoat Forum

Aerial vaccines are also directed towards animals by the use of plastic packets dropped by planes or helicopters. Sanofi (who is one of the largest vaccine manufacturers in the world) has subsidiary companies such as Merial Limited who manufacture Raboral, an oral live-virus poisonous to humans yet distributed wildlife in the masses. "In the United States, more than 12 million doses of ...
