If you have a problem with some graphics showing up as large open spaces, empty or black boxes, right-click the link in the directory for the page you're viewing and open the page in a new tab. This will resolve most/all of those issues. Setting the font size at 1 step larger than the default will also help if you want to view the site in it's original format.

Probe Volume Characteristics. The two beams must be focused at the probe volume to 1) create the smallest possible intersection zone (increasing the "brightness" of the light reflected by the particles), and 2) to ensure that the spacing between the fringes does not change much inside the probe volume.
