Check the suggested answers - remember these are suggestions only and there are often many possible answers. Discuss questions and answers with other students. 4.

### Student Self-administered case study Introduction to MIS

Virtually any MIS case could be solved with the simple statement that the firm needs more computers. However, a one-line statement is not a very useful plan. In any business setting, you not only have to find an answer, you must also persuade others (executives) that your answer is the best alternative.
