Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

Carbon-14 Dating. Carbon-14 (14 C), also referred to as radiocarbon, is claimed to be a reliable dating method for determining the age of fossils up to 50,000 to 60,000 years.If this claim is true, the biblical account of a young earth (about 6,000 years) is in question, since 14 C dates of tens of thousands of years are common.1. When a scientist's interpretation of data does not match the ...
