The Industrial Revolution marked a major turning point in Earth's ecology and humans' relationship with their environment. The Industrial Revolution dramatically changed every aspect of human life and lifestyles. The impact on the world's psyche would not begin to register until the early 1960s, some 200 years after its beginnings.

One of the most important arguments of women's history is that womanhood is historical. Ideas about who is a woman, what kinds of things are considered "feminine," and the ways in which women are supposed to act, look, and think — these aren't biological truths and they aren't static over time. Beliefs and practices are... MORE
