Randomness is the lack of pattern or predictability in events. A random sequence of events, symbols or steps has no order and does not follow an intelligible pattern or combination. Individual random events are by definition unpredictable, but in many cases the frequency of different outcomes over a large number of events (or "trials") is predictable.

Corrective feedback is a frequent practice in the field of education and in learning generally. It typically involves a student receiving either formal or informal feedback on his or her performance on various tasks by a teacher or peer(s). However, learning that takes place outside of the realm of institutional schooling can also rely heavily on corrective feedback.
