In the curriculum of the Waldorf schools, much of the education in academic subjects takes place in blocks, generally of 3-5 weeks duration. Each pupil generally writes and illustrates a self-created textbook representing the material learned in the block. These blocks are supported by on-going classes in subjects such as music, art and crafts, and foreign languages that continue throughout ...

The roots of algebra can be traced to the ancient Babylonians, who developed an advanced arithmetical system with which they were able to do calculations in an algorithmic fashion. The Babylonians developed formulas to calculate solutions for problems typically solved today by using linear equations, quadratic equations, and indeterminate linear equations.
