This best brains answer key, as one of the most practicing sellers here will definitely be among the best options to review.*

**Best Brains Answer Key**

The brains of all species are composed primarily of two broad classes of cells: neurons and glial cells. Glial cells (also known as glia or neuroglia) come in several types, and perform a number of critical functions, including structural support, metabolic support, insulation, and guidance of development. Neurons, however, are usually considered the most important cells in the brain.

A few weeks ago I wrote a post on note-taking skills. One common experience many people have, and that several people mentioned in response to that post, is that when they take good notes they remember things well enough that they rarely end up having to look at their notes again. In fact, it seems that writing
