The book you mention came to my attention several months ago but I treated the subject matter with scepticism and deferred purchase. Then I gave my right elbow a severe wrench several weeks ago and it was the residual and persistent pain from this that provided the incentive to reconsider ordering the book.

Skeptical Science is a climate alarmist website created by a self-employed cartoonist, John Cook (who apparently pretends to be a Nazi). It is moderated by zealots who ruthlessly censor any and all form of dissent from their alarmist position. This way they can pretend to win arguments, when in reality they have all been refuted. The abuse and censorship does not pertain to simply any dissenting ...
