Ch. 42 Circulatory Systems And Gas Exchange - Katy ISD

Sinoatrial node (SANode) sends out an electrical impulse to cause contraction of the heart at the rate of about 80 beats per minute (resting rate). The SA node sends out its electrical impulse, which travels through the muscle of the heart, and causes both atriums to contract at the same time. The impulse continues to travel down the heart to the atrioventricular node (AV node), where there is a ...
