A space elevator is a proposed type of planet-to-space transportation system. The main component would be a cable (also called a tether) anchored to the surface and extending into space. The design would permit vehicles to travel along the cable from a planetary surface, such as the Earth's, directly into space or orbit, without the use of large rockets.

The variety and availability of online high school diploma programs can be both annoying and frustrating. Diplomas from quality online high schools are academically equivalent to those earned in the traditional high school setting, and should be recognized as such by potential employers and colleges and universities.
