Machine learning (ML) is the scientific study of algorithms and statistical models that computer systems use to effectively perform a specific task without using explicit instructions, relying on patterns and inference instead. It is seen as a subset of artificial intelligence.Machine learning algorithms build a mathematical model based on sample data, known as "training data", in order to ...

The convergence of computing and communications dictates building up rather than out. As consumers demand more functionality in their hand-held devices, the need for more memory in a limited space is increasing, and integrating various functions into the same package is becoming more crucial. Over the past few years, die stacking has emerged as a powerful tool for satisfying these challenging ...

AbstractIn recent years new discourses have emerged to inform philosophy and pedagogy in early childhood. These range from various postfoundational perspectives to objectivist accounts such as neuroscience in relation to brain development. Given the variety of competing narratives, the field is complex and multifaceted with potential to revision early childhood pedagogy through varied ...

FPT Software is a member of FPT Corporation. In 1988, FPT was founded by 13 young scientists with the desire to build "a company guided by technological innovations, committed to the highest level of customer satisfaction, contributing to the nation's prosperity and providing its employees with the most favorable work environment possible, enabling them to reach their full potential in ...

About FPT Corporation - FPT Software
where x is the waveform signal, ε's are independent normally distributed with mean 0 and constant variance $\sigma 2$, and a_i, b_i are model coefficients. An AR model of order p is a special case of ARMA (p, q) with q = 0.Poyhonen et al. applied AR model to vibration signals collected from an induction motor and use the AR model coefficients as extracted features. . Baillie and Mathew compared the ...
