Your particular string won't work as typed because of the escape characters at the end \", won't allow it to close on the quotation. Maybe I'm just wrong on that one because I'm still very new to python so if so please correct me but, changing it slightly to adjust for that, the repr() function will do the job of reproducing any string stored in a variable as a raw string.

Print raw string from variable? (not getting the answers)
